### MORE ABOUT JUNIPER RIDGE:

We formulate Wilderness Perfume by distilling and extracting fragrance from wildflowers, plants, bark, moss, mushrooms, and tree trimmings that we harvest on the trail. We are building a new fragrance grammar of the American West. Our company is built on the simple idea that nothing smells better than the outdoors and that the only way to bring this beauty home is to strap on your boots and go there.

All Juniper Ridge products are 100% natural and produced using old perfume making techniques including distillation, tincturing, infusion and enfleurage. All of our plants are wildharvested with the utmost sensitivity and respect for the existing wildscape. We return to the same stands year after year to carefully monitor regrowth.

10% of all Juniper Ridge profits are annually donated to a portfolio of Western Wilderness Defense organizations. Visit [www.juniperridge.com](http://www.juniperridge.com) for more information!
